

SONIA GOLAD

Dear Children of the Future:

My name is Sonia Golad. I came to the Kansas City area in the year 1951 because we lived in a small town in Iowa. I wanted to live in a larger city with my family. When I visited Kansas City I really loved the town.

My proudest accomplishments since coming to the United States are finishing high school and getting a diploma. After studying American history and the Constitution of the United States, I applied for citizenship and was sworn in as a U.S. Citizen in 1951.

The Midwest Center for Holocaust Education is important for Kansas City because it teaches teachers how to present the horror of the Holocaust to students. The Center documents the history of the Holocaust.

From studying the Holocaust, you should learn how hate of anyone could bring about a Holocaust and the importance of learning about tolerance.

My message for you, our future generation, is don't forget the 6,000,000 Jews who perished during the Holocaust.

Very truly,

Sonia Golad
